

LYCÉE	Lazare Carnot ARRAS	<h1>BAC Sustainable Development</h1>		
		<h2>COMPREHENSION PAPER</h2>		
		Specialty : Energy & Environment		ACTIVITY Sustainable development Introduction to life cycle assessment

1 Describe the cycle and comment

2 Draw the life cycle of simple products for an oral presentation next week

Have a look at the following websites in order to find ideas. You can use them for your work but don't make a simple copy and paste. Present the product and detail each step of the cycle (if possible).
